-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

This application contains claims 5-8 and 15-18 drawn to an invention nonelected with traverse on April 11, 2005. A complete reply to the final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 2 and 9-14 are rejected under 35 U.S.C. 102(b) as being anticipated by Janopaul, Jr. (U.S. Patent 5,044,834).

Janopaul discloses a block having a substantially contiguous top (34), bottom (29), front (23), rear and side (not labeled) surfaces. Facets of the side surfaces that are closest to the rear surface are in substantially parallel planes (Figure 3B, for example).

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 3 and 4 are rejected under 35 U.S.C. 103(a) as being unpatentable over Janopaul, Jr. as applied above, and further in view of Okerlund (U.S. Patent 5,943,827).

Janopaul does not teach the projection in the manner claimed; however, Janopaul does disclose the blocks to be stacked in an offset manner (Figure 6B). Okerlund teaches the projection (74) as claimed for anchoring blocks in the same offset manner. It would have been obvious to one of ordinary skill in the art at the time the invention was made to have used the projection of Okerlund in order to ease in placing the blocks in a consistent manner, in accordance with the teaching of Okerlund.

Response to Arguments

Applicant's arguments filed November 21, 2005 have been fully considered but they are not persuasive. With respect to the substantially contiguous top surface, the rejection has been changed so that surface (34), which meets the newly recited limitations, is now considered to be the top surface.

In response to the argument that the combination of Okerlund with Janopaul would have been redundant, the reasons for motivation of one skilled in the art have been changed. It is maintained that this combination is within ordinary skill in view of the teachings of these references.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 3671

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
